What is Lightcast Data?

Lightcast data is a hybrid dataset derived from official government sources such as the US Census Bureau, Bureau of Economic Analysis, and Bureau of Labor Statistics. Leveraging the unique strengths of each source, our data modeling team creates an authoritative dataset that captures more than 99% of all workers in the United States. This core offering is then enriched with data from online social profiles, resumés, and job postings to give you a complete view of the workforce.

Lightcast data is frequently cited in major publications such as *The Atlantic*, *Forbes*, *Harvard Business Review*, *The New York Times*, *The Wall Street Journal*, and *USA Today*.

Compensation

Talent Is 7% Cheaper, While the Cost of Living May Make Attraction Difficult

In 2021, the median compensation for your occupations in Marathon County, WI is $50,863. Based on the national median wage of $54,486 for this position, this means you will spend about 7% less to employ your occupations here. However, their actual purchasing power will be 7% less than the national median when we adjust for regional cost of living (which is 0% lower than average). This may make it harder to attract talent to the region at this price.
