## What is Lightcast Data?

Lightcast data is a hybrid dataset derived from official government sources such as the US Census Bureau, Bureau of Economic Analysis, and Bureau of Labor Statistics. Leveraging the unique strengths of each source, our data modeling team creates an authoritative dataset that captures more than 99% of all workers in the United States. This core offering is then enriched with data from online social profiles, resumés, and job postings to give you a complete view of the workforce.

Lightcast data is frequently cited in major publications such as *The Atlantic*, *Forbes*, *Harvard Business Review*, *The New York Times*, *The Wall Street Journal*, and *USA Today*.

# Workforce Map

## Executive Summary

### Light Hiring Competition Over an Average Supply of Regional Talent

\*National average values are derived by taking the national value for your occupations and scaling it down to account for the difference in overall workforce size between the nation and your area. In other words, the values represent the national average adjusted for region size.

# Supply (Jobs)

## Supply Is About Equal to the National Average

The regional vs. national average employment helps you understand if the supply of your occupations is a strength or weakness for your area, and how it is changing relative to the nation. An average area of this size would have 38,357\* employees, while there are 36,347 here. The gap between expected and actual employment is projected to narrow over the next 5 years.

\*National average values are derived by taking the national value for your occupations and scaling it down to account for the difference in overall workforce size between the nation and your area. In other words, the values represent the national average adjusted for region size.

# Compensation

## Talent Is 7% Cheaper, While the Cost of Living May Make Attraction Difficult

In 2021, the median compensation for your occupations in your area is \$50,873. Based on the national median wage of \$54,486 for this position, this means you will spend about 7% less to employ your occupations here. However, their actual purchasing power will be 6% less than the national median when we adjust for regional cost of living (which is 1% lower than average). This may make it harder to attract talent to the region at this price.

# Demand

## 657 Employers Competing

All employers in the region who posted for this job over the last 12 months.

## 4,648 Unique Job Postings

The number of unique postings for this job over the last 12 months.

## 29 Day Median Duration

Posting duration is 3 days longer than what's typical in the region.
